Digitalization  
Issues  
Way forward

# 01 - AI & Data Science

# AI and Data Science

- **Artificial Intelligence** - Systems that display **intelligent behavior** by analysing their **environment** and **taking action** - with some degree of **autonomy** - to achieve a **specific goal** - Philip Boucher
- **Data Science**: The process of **collecting, storing, segregating** and **analyzing** data which serves as a valuable resource for organizations to carry out data-driven **decision making** - Edureka

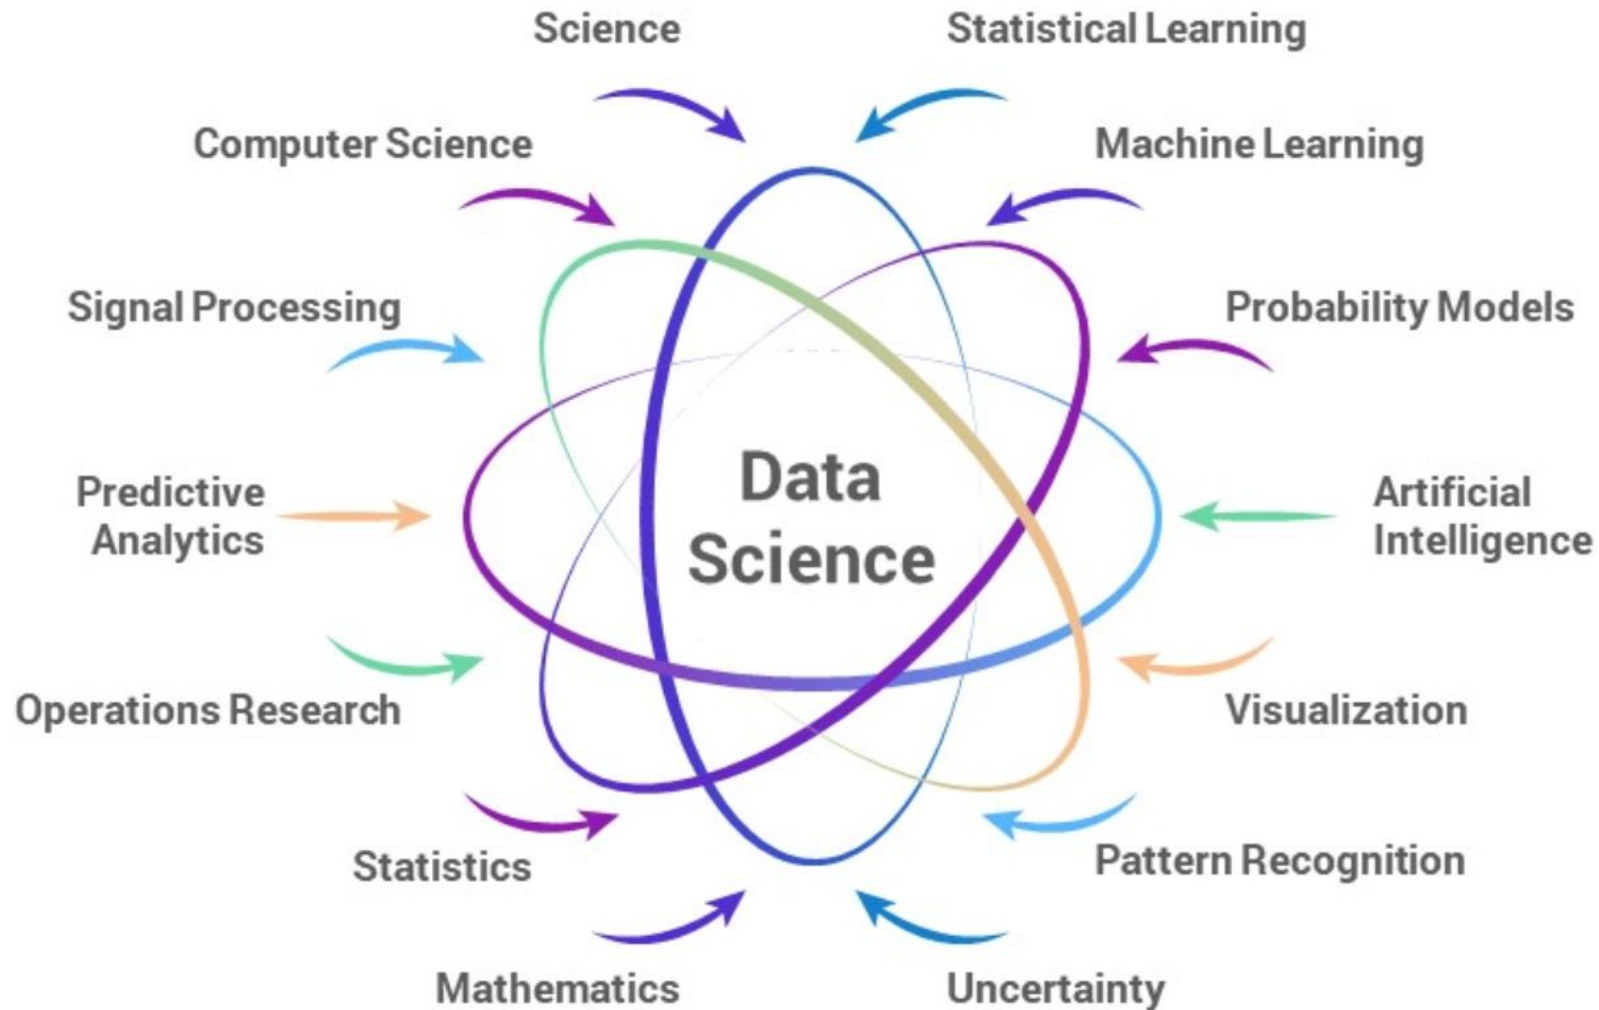

**Machine Learning** is a subsection of **Artificial intelligence** that devices a way by which systems can automatically **learn** and **improve** performance from **experience**.

Additional Information:  
Worldwide

# Data Science Market

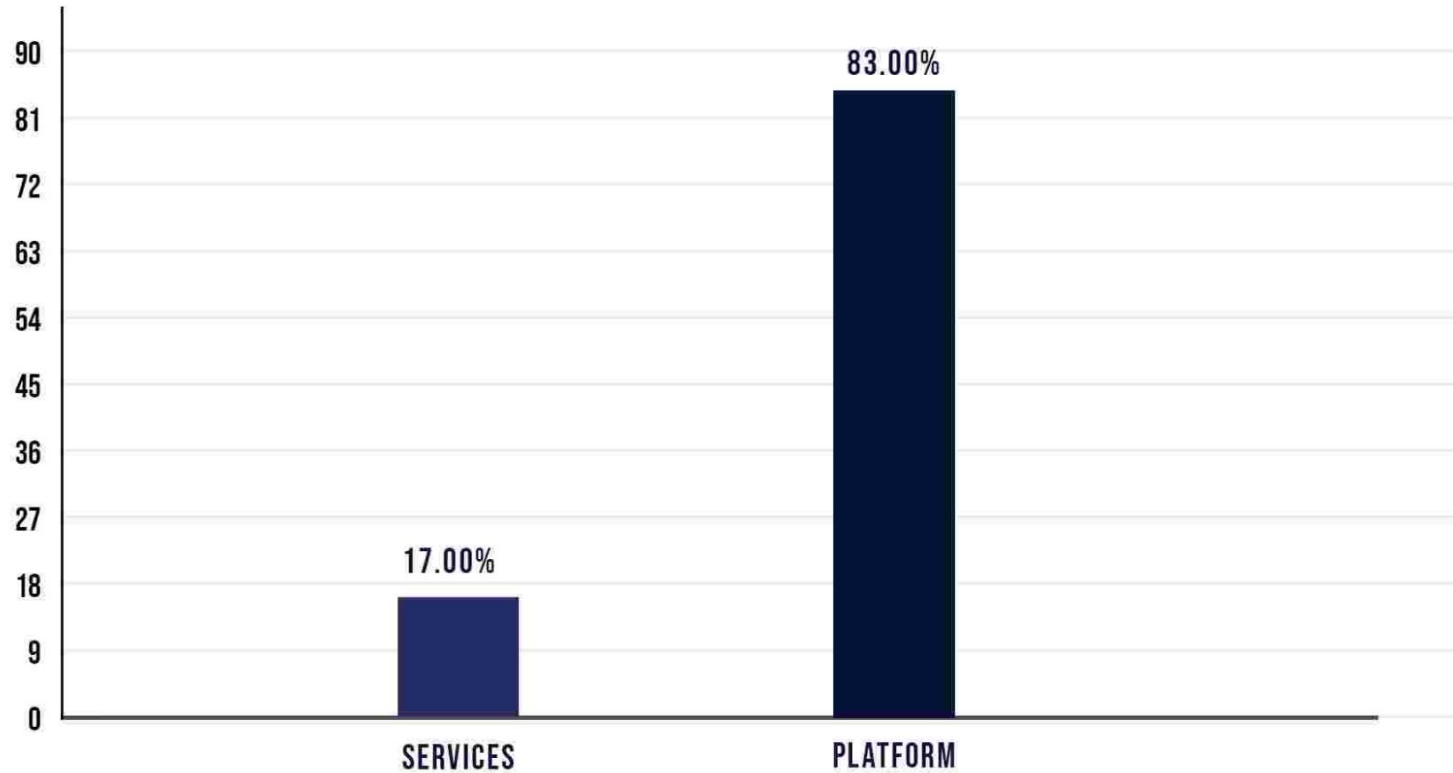

**Report:** Global Data Science Platform Market by Component (Platform, Services), by Application (Marketing & Sales, Logistics, Finance and Accounting, Customer Support, Others), by Industry Vertical (BFSI, Retail and E-Commerce, IT and Telecom, Transportation, Healthcare, Manufacturing, Others): Global Opportunity Analysis and Industry Forecast, 2020-2030

Vikas Gaikwad , Vineet Kumar

## DATA SCIENCE PLATFORM MARKET SIZE, 2021 TO 2030 (USD BILLION)

## DATA SCIENCE PLATFORM MARKET SHARE, BY COMPONENT, 2021 (%)

## Data Science Platform Market Share, By Region, 2021 (%)

Regions	Revenue Share in 2021 (%)
North America	36%
Asia Pacific	25%
Europe	29%
Latin America	6%
MEA	4%

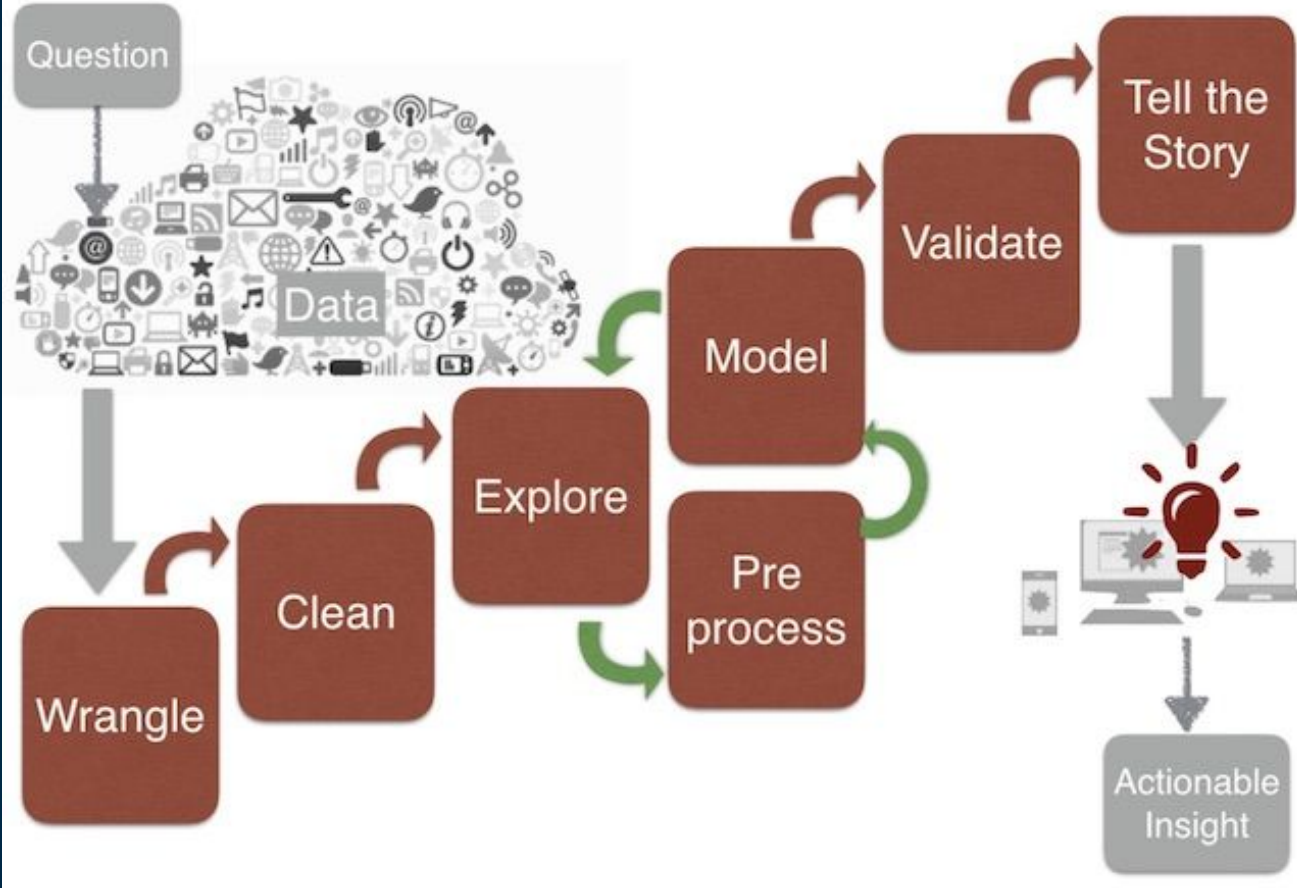

# Data Science Pipeline

# Data Science Pipeline

<https://d8it4huxumps7.cloudfront.net/bites/wp-content/uploads/2018/09/datascience-pipeline.jpg>

# Data Science Enablers

# Enablers

- Social, Mobile, Cloud, and IoT (SMACIT)

- Artificial intelligence, Machine learning / Deep learning

- Data Storage, computation, Visualization and Analytics

# AI and Data Science Challenges

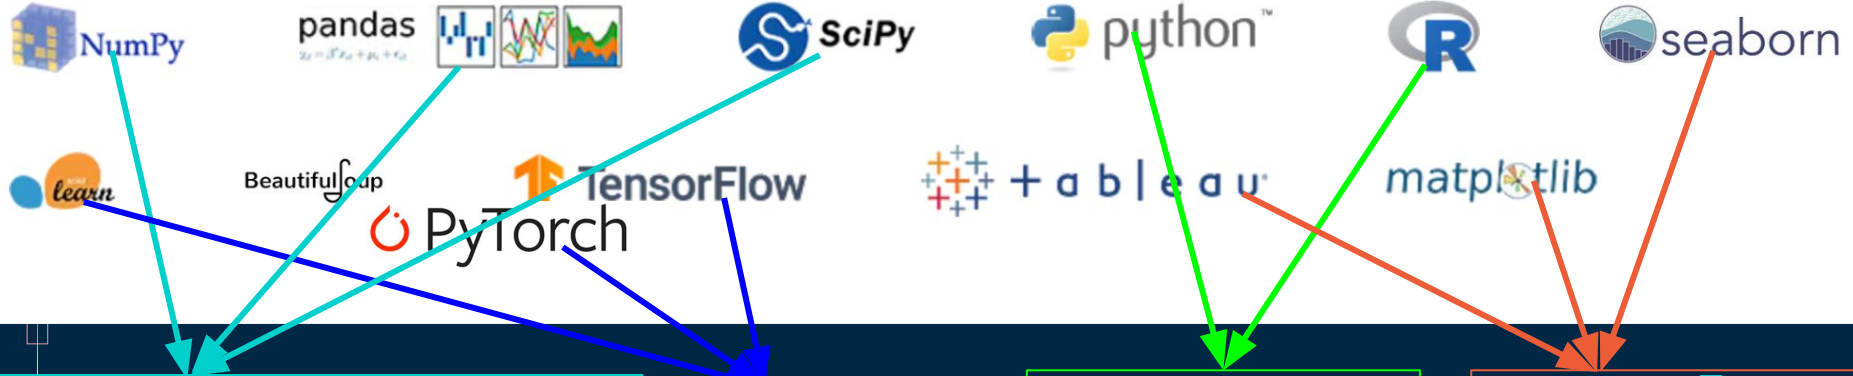

<https://blogs.sap.com/wp-content/uploads/2019/07/security.png>

# ML and data science challenges

By Pavel Klushin

- **Data collection**: Large amount of unorganized data (storage is cheap), a lot of data source (difficult to find right source)
- **Data security and privacy**: compliance requirements
- **Large data volumes**: Storage, management, model building
- **Missing data**: lack of data documentation
- **Extracting the right insights**: right insight, real-time, high-quality
- **Right talent**: huge skills gap and talent shortage
- **Expensive**: right team setup, model building, infrastructure

# Data Science Toolkits

Comprehensive mathematical functions, random number generators, linear algebra routines, Fourier transforms, easy to use structures and data analysis, algorithm for optimization, integration, interpolation

Machine learning, evaluation, learning algorithms...

Software environment for statistical computing and graphics, the development of both web and desktop applications

Python based data visualization, enabling data-driven decisions

## 02 - Use-cases at HCDS

# HOUSE OF COMPUTING AND DATA SCIENCE

- A **central institution** of the University of Hamburg
- Supports **interdisciplinary research** and application of **innovative digital methods** in close cooperation with its partners from **science and industry** in the Hamburg metropolitan region.
- **Coordinates** and **supports** the implementation of the **digital strategy** in research at the University of Hamburg.

# Philosophy

Generare imaginary picture for text using Deep Daze!

<https://github.com/lucidrains/deep-daze>

a victorian beach in a cave

# Legal Document Processing

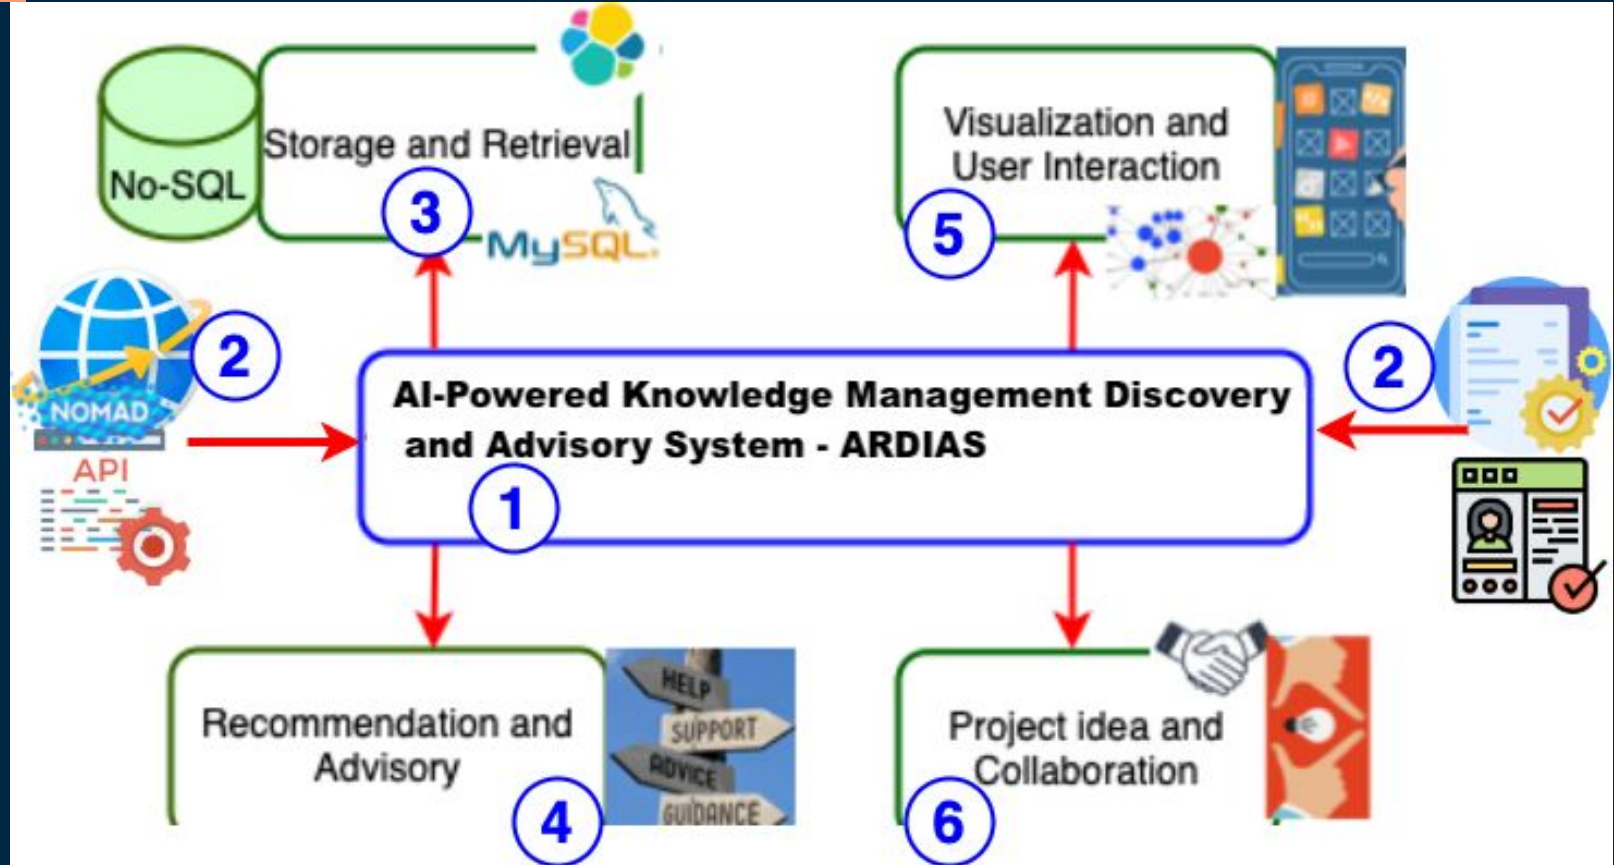

Understand German regulations related to "Data" over time, 1950 -

# ARDIAS: AI-Enhanced Research Management, Discovery and Advisory System

Improve the Findability, Accessibility, Interoperability, and Reuse of research data

## Carbon quantum dots and their applications

*Shi Ying Lim, Wei Shen, Zhiqiang Cao*, 2015 - **Chemical Society Reviews**

This review covers the progress in research and development of carbon quantum dots their applications chemical sensing, biosensing, bioimaging, nanomedicine, photocatalysis electrocatalysis.

## SeqKit: A Cross-Platform and Ultrafast Toolkit for FASTA/Q File Manipulation

*Wei Shen, Shuai Le, Yan Li, Fuquan Hu*, 2016 - **PLOS ONE**

FASTA and FASTQ are basic ubiquitous formats for storing nucleotide protein sequences. Common manipulations of FASTA/Q file include converting, searching, filtering, deduplication, splitting, shuffling, sampling. Existing tools only implement some these manipulations, not particularly efficiently, available certain operating systems. Furthermore, the complicated installation process...

## Entity Linking with a Knowledge Base: Issues, Techniques, and Solutions

*Wei Shen, Jianyong Wang, Jiawei Han*, 2015 - **IEEE Transactions on Knowledge and Data Engineering**

The large number of potential applications from bridging web data with knowledge bases have led to an increase in the entity linking research. Entity is task link mentions text their corresponding entities a base. Potential include information extraction, retrieval, and base population. However, this challenging due name variations ambiguity. In survey, we present thorough overview analysis main...

# Upcoming Workshop – Thought in humans and machines

Speakers:

Monday, November 14th & Tuesday, November 15th, 2022

- **Anjali Bhat:** “Dishbrain and immunoception: Alterity at a biological interface “ (Wellcome Centre for Human Neuroimaging, London)
- **Cameron Buckner:** Sentimental machines – artificial moral and social cognition in the age of deep learning (Philosophy, University of Houston (Zoom))
- **Anne Lauscher:** Fairness & Inclusion in modern AI: Cases for Historical Fiction? (Data Science, Universität Hamburg)
- **Sara Mann:** "Understanding via Exemplification in XAI" (Philosophy, Technical University of Dortmund)
- **Dimitri Coelho Mollo:** "Models of (Artificial) Intelligence: idealisation and behaviour" (Philosophy, Umeå University)
- **Stephanie Nelli:** The geometries of flexible knowledge structures in minds and machines (Cognitive Science, Occidental College, Los Angeles)
- **Nicholas Shea:** How to Solve and Avoid the Frame Problem (Philosophy, School of Advanced Study, London (Zoom))

# 03 - Digitalization for Data Science in Emerging Economy

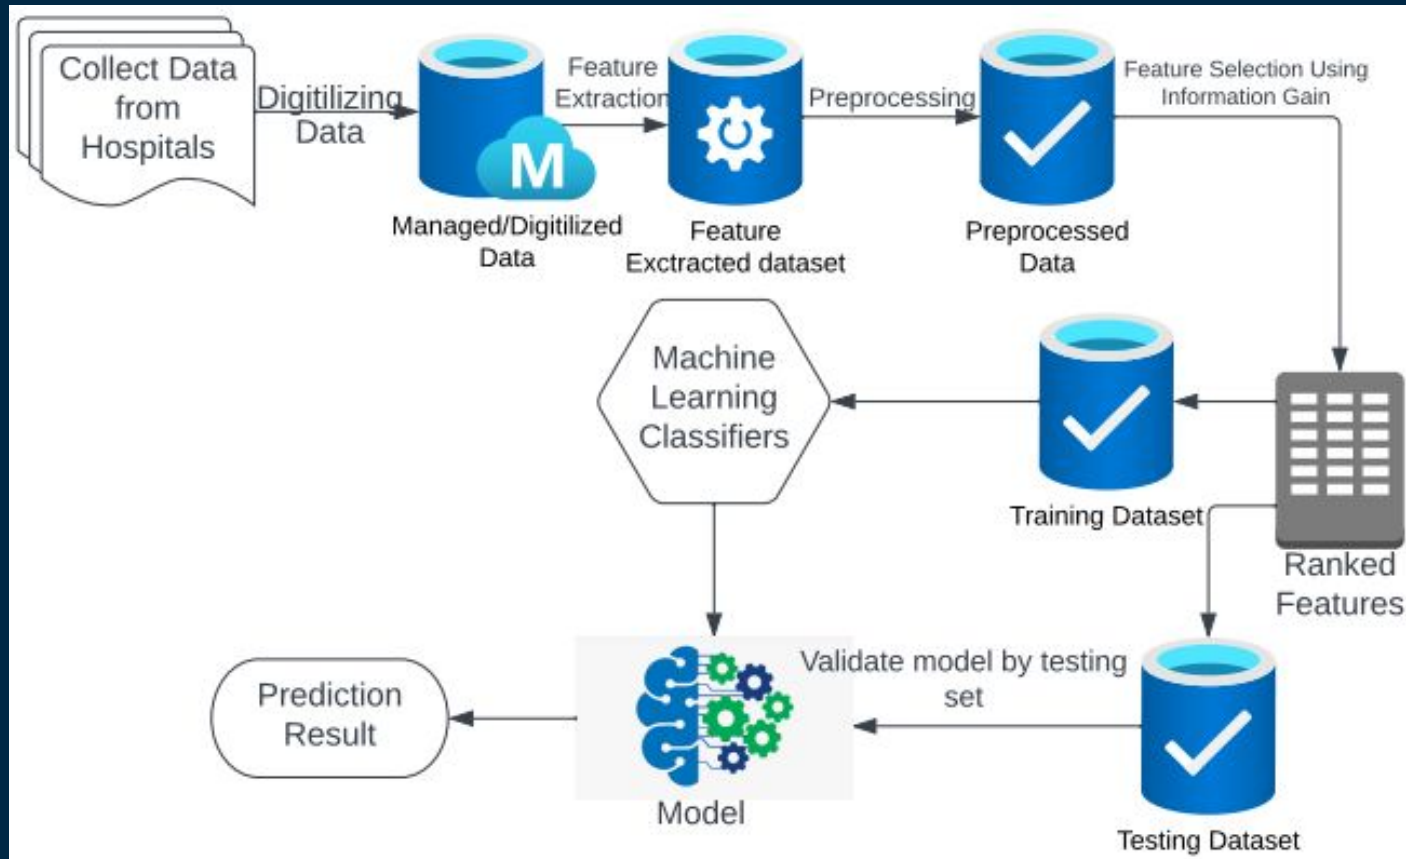

# Datafication

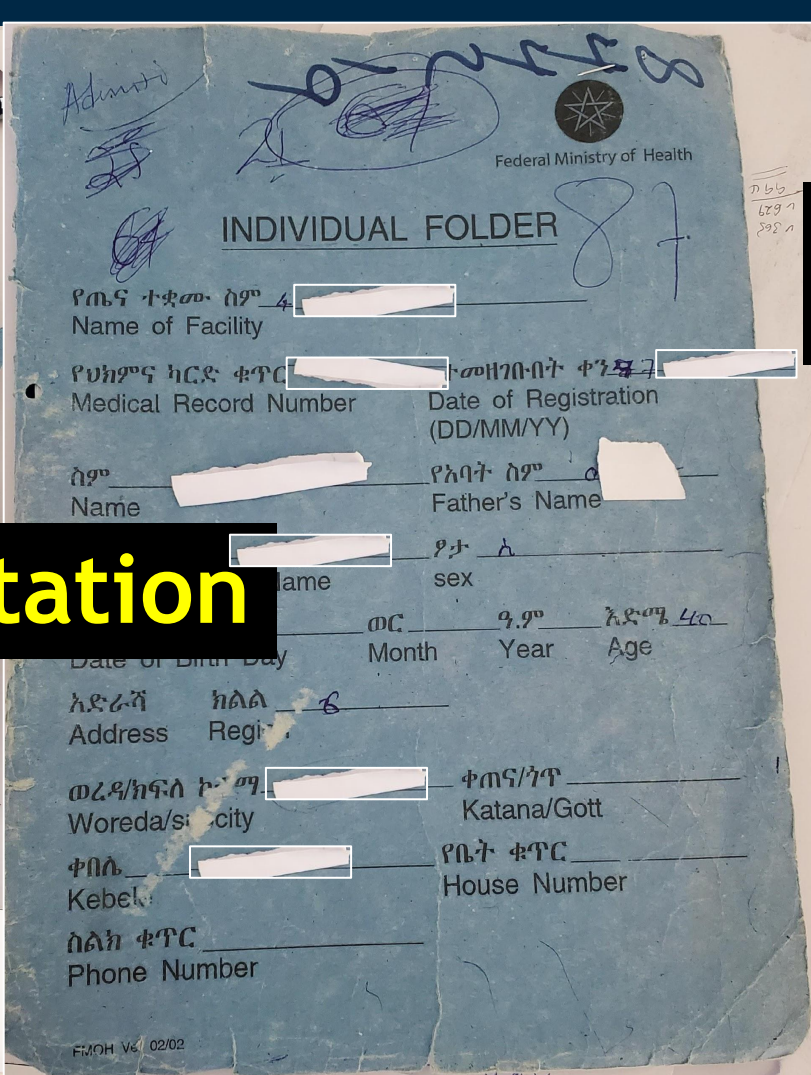

The process that makes a business data driven is by **collecting huge data from various sources** and storing them in **centralized places** to **find new insights** that lead to **better opportunities** - can be termed as **Datafication**. Datafication will take big data analysis to new heights - into **real insights, future predictions** and **intelligent decisions**.

# Data Science Initiatives in Africa

# A great time to be on the African continent

Artificial Intelligence

## *Growth in the African Artificial Intelligence Community*

Large push in research areas:

- Algorithms/Computation
- Climate Actions
- Economic Growth
- Education
- Inequalities
- Healthcare
- Industry, Innovation and Infrastructure
- African Language
- Sustainable Cities and Communities
- ...

Driven by

- Grassroots AI
- Young People
- Open ML Tools
- Open Science
- Governments
- Private Sector

**DSA**  
Data Science Africa

# Masakhane

A grassroots NLP community for Africa, by Africans

# DS-I Africa

Data Science for Health Discovery  
and Innovation in Africa

Data Science for Social Impact

Semantic Models for Ethiopic

# Recommendations

- More **Research** on AI, Data Science, and ML projects
- Tailored for Data Science, NLP, AI related **Master and Ph.D. streams**
- More **Conference** and **workshop, meetups**, collocate with international events
- **Training** and **consultation** center for Data Science and AI projects
- Support **startups** in AI and Data Science

# Thanks
